Advices from the scene of strife state no change in the position of the belligerents. The allied batteries and vessels continued every day to throw shell into the Paraguayan works. The enemy made slight response, and occasionally came in collision. Careful watch is kept over the Paraguayan movements, to prevent them advancing their batteries in any direction. General Synod of the Reformed Presbyterian Church.

[Special correspondence Pittsburgh Gazette.]

NEW YORK, May 21, 1867.

Synod resumed business on Monday afternoon at 3 o'clock. After the usual formalities were gone through, the Committee on Intemperance and Sabbath breaking presented the following report, which was adopted:

Whereas, Intemperance and Sabbath desecration are not only hurtful to the individual, the family, and the State, but also dishonoring to God and in violation of his holy law, it is important that earnest attention be given to these evils by the church, and proper remedies applied; and,

Whereas, the Church, by continued neglect of discipline, where discipline is required, and by failure to declare authoritatively on these great moral questions, would lie under a reproach before the world; therefore,

Resolved, That this Synod urge upon all under its authority to abstain not only from the habitual use of intoxicating drinks and from all encouragement of others in their use, but to avoid even the appearance of evil.

Resolved, That ministers be urged to present the subject faithfully from their pulpits, and all Church members to co-operate with others in every proper effort to advance the cause of temperance.

Resolved, That the Synod commend to Sabbath School teachers the importance of impressing upon the young the advantage of total abstinence from all intoxicating liquors as a beverage.

Resolved, That those who conduct religious periodicals be earnestly requested to give all possible publicity to every discussion which may throw light upon the obligations of the Sabbath, and to discountenance all violations of the day by public officers of our National and State Governments in the transaction of official business on the Lord's Day, and, further, that they abstain from advertising the special facilities which Sabbath-breaking corporations offer for Sabbath desecration.

Resolved, That the Synod calls not only on its own ministers and members, but on all who love the Lord Jesus Christ, to put forth strenuous, united, continuous, and prayerful efforts to stay the evil in the land.

The Rev. S. W. Crawford, D. D., and Dr. David Steele presented a complaint against the Philadelphia Presbytery, of which they are members, for not sending as full a delegation as they were entitled to under the constitution and laws of Synod. This complaint elicited an extended discussion. Pending its consideration, Synod adjourned to Tuesday morning at half past nine o'clock.

Synod met on Tuesday morning at the usual hour, and opened with prayer. It was resolved that the devotional exercises be held at the close of the morning hour. The Philadelphia Presbytery reported. In this report it was stated that there were three protests against Presbytery which accompanied it. The first protest was against the licensing of Mr. George S. Chambers, on account of his having written some article in opposition to the law of the church on the subject of Psalmody. The second protest was against the Presbytery for holding a *pro re nata* meeting on the 13th of July, 1866, without giving due notice according to Presbyterial law.

The third protest was against the licensure of Robt. E. Thompson on account of his entertaining sentiments at variance with the doctrines of the Reformed Presbyterian Church. These protests were made by Drs. Crawford and Steel. They were referred to a special Committee and will no doubt elicit much discussion.

Papers on "Odd Fellowship" and "Communion," were referred to special committees. The Moderator decided that a motion to refer the protests to the Committee on Discipline was out of order.

Synod then proceeded to the devotional exercises, at the close of which adjourned to 3 o'clock in the afternoon.

Second Annual Convention of the Protestant Episcopal Church, Diocese of Pittsburgh.

[Special Correspondence Pittsburgh Gazette.]

ERIE, May 21, 1867.

This being the day appointed by the primary Convention held at Pittsburgh a year ago, for the second convention of this young Diocese, delegates have been gathering to this, the appointed place, for two or three days. The Board of Missions, having a quorum present, with the Bishops, held two meetings yesterday. To-day an elegant "Director's Car," kindly furnished by Gen. Cass for the occasion, arrived from Pittsburgh with the clergy of that city and intermediate places. From East, West and South delegates arrived on all the trains. Not one of your city clergy remain with the flocks at home, except the venerable Doctor Page, detained by sickness, and Rev. Dr. Ritchey, provisional Rector of Trinity Church, who has not yet acquired a canonical residence. His predecessor, Doctor Swope, now of Trinity Chapel, New York, is here, not as a delegate, but having labored more abundantly than any other in the origin and organization of the Diocese, and especially as chairman of several committees to which important duties were assigned by the first convention, he has yielded to the general wish that he would meet with his former colleagues for consultation and advice.

At 5 o'clock p. m. in St. Paul's Church, the Convention was organized, Bishop Kerfoot presiding. The former efficient Secretary, Captain T. J. Brereton, of Saint John's, Lawrenceville, was re-elected. At the roll call about thirty clerical and forty lay members answered to their names.

Vacancies in some of the Standing Committees were filled, and one or two Special Committees appointed. Three sessions a day were agreed upon. Non-resident clergymen and students of Divinity were invited to seats. Rev. C. E. Swope, D. D., with but one dissenting vote, was invited to a seat in the Convention, with the right of participating in the debates.

A service at 8 o'clock, followed by addresses on the subject of Diocesan measures. was announced. Also, service at 9 o'clock, A. M. to-morrow, with Convention sermon, by Dr. Swope, to be followed by the Bishop's annual address, and other business.

It is a subject of general regret that the Bishop is afflicted with an intensely bad cold, impairing his voice so that he can only by a painful effort make it audible in distant parts of the church. We all hope he may be better to-morrow and able himself to read his annual address.

FROM ROCHESTER, N. Y.

Presbyterian Assembly—Report of Committee on Erection of Churches—Constitutional Charges.

[By Telegraph to the Pittsburgh Gazette.]

ROCHESTER, May 22.—In the Presbyterian General Assembly to-day, the Standing Committee on the Erection of Churches, reported one hundred churches without buildings of their own, and recommended that $100,000 be raised to assist in providing buildings.

Rev. Mr. Clark, of Michigan, exhibited a silver coin one hundred and thirty-one years old, which he said a poor man gave to a church building fund. Contributions were at once taken to redeem the coin and return it to the giver, and there was soon collected one hundred and two dollars.

Last evening a meeting was held to consider the question of erecting a Home Mission Church and the subject of ministerial education. The meeting was addressed by some of the most eloquent men.

In the meeting this morning communications were read from corresponding congregational bodies.

Delegates from New Hampshire and Connecticut were formally received and addressed the Assembly.

The report of the Special Committee on Reunion was presented and adopted.

The report of the Joint Committee of the two assemblies was approved.

The matter of constitutional changes to adapt the system to a new order of things was referred back to the Joint Committee to report to the Assembly of '68.

AFTERNOON SESSION.

Nathan Lane, Geo. W. Lane and John H. Crosby, were elected trustees of the Church Erection fund.

The meeting was made the occasion of a formal reception of the Scotch delegation, composed of Rev. Patrick Fairbairn and Rev. Wells. Both addressed the meeting. At the conclusion of the reception, E. A. Raymond, of the delegation from the Old School Assembly, which held its session at St. Louis, last year, addressed the Assembly in a forcible appeal for the reunion.

A letter was received from Dr. Yeoman and other members of the delegation, expressing their regret at being unable to be present, and their good wishes for the success of the work.

Steamship Ashore—Seven of the Passengers Drowned.

[By Telegraph to the Pittsburgh Gazette.]

ATLANTIC CITY, May 22.—This afternoon, about four o'clock, the steamship Santiago de Cuba, Capt. Brehme, went ashore on the beach, about six miles below this city. She belongs to the Nicaragua Steamship Company, and was bound to New York with four hundred souls on board. The life boat was unfortunately capsized, and five persons drowned. Two others were afterwards drowned. The names of the lost are Mrs. Eunice Salone Gross, Miss Sarah McAvoy, Mrs. Mary Watkins, Mrs. Marietta Rickens, Martin McNulty, John Smith and Mary Louisa Gross.

An inquest has been held, and a verdict returned of "accidental drowning." Two of the bodies, those of John Smith and Mary L. Gross, have not been recovered.

The Next Public Debt Statement—Slight Increase—Decrease in Internal Revenue—Geological Survey of Nebraska, &c., &c.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, May 22, 1867.

GEOLOGICAL SURVEY OF NEBRASKA.

The following are extracts from a letter received by the Commissioner General of the Land office, from Dr. Hayden, recently appointed to make a geological survey of Nebraska: "Mr. Meek left some time ago for Iowa to trace the coal beds into Nebraska. Mr. Gillas is with him. I shall start in a week with my outfit complete." Speaking of some photographs he wants to form part of the archives of the survey, he says of Sioux Falls, Dakotah: "The Falls form the finest water power in the west, and will at some future period be of immense value."

THE NEXT PUBLIC DEBT STATEMENT.

The next Treasury monthly statement will show a slight increase in the public debt, owing to the large amount of twenty-five millions recently paid as interest, and the small receipts of internal revenue, estimated not to exceed fifteen millions. The revenue returns will, however, be largely increased in June by the income tax being then due. Confidence is expressed in the ability of the Treasury to meet all accruing obligations, and there is no probability that the Treasury will be embarrassed.

FROM WASHINGTON, PA.

Trial of John Lennox for the Murder of Robert Morrow.

[Special Correspondence Pittsburgh Gazette.]

WASHINGTON, May 21, 1867.

The Lennox homicide case was called up this morning at nine o'clock. The circumstances must be familiar to your readers, but I will revive it briefly for their benefit.

On the night of the 31st of October, 1864, Robert Morrow was shot on the street of this borough, under the following circumstances: Morrow and Lennox had had a difficulty about politics, and on the evening above referred to, Morrow was in the drinking saloon kept by Jacob Coogle, when Lennox, accompanied by several others, came in, and a quarrel ensued. Morrow fearing an attack from the whole party, made his escape through a back room, from which he came out on the street, and crossed to the opposite side. While standing there talking in an excited manner, Lennox crossed the street to where Morrow was, and fired at him; and as he fired the second time, Morrow fired also, and then retreated down the street toward his home, with a number of persons following him. During this time there were quite a number of shots fired—so many that it was evident that more than Lennox and Morrow were shooting. Morrow was struck by one of the shots, the ball entering the left buttock, about two and a half inches from the spinal column, passing through several folds of the *entrails* and lodging in the *diaphragm*, or rim of the abdomen, about two inches to the right of, and on a line with the navel, from the effects of which death ensued two days after, on the 2d of November, 1864. An inquest was held, the jury rendering a verdict to the effect that Morrow came to his death by a pistol shot fired by the hands of John Lennox.

Lennox was arrested some weeks after and committed to jail, where he has been ever since, except when on his way to and from Beaver county, to where the venue in his case was changed by act of Assembly of 1865, and changed back to this county at the last session,—and to and from Pittsburgh, where he was sent for safe keeping,—the jail here not being considered sufficiently secure.

The case is being conducted by the District Attorney of this county, Mr. Crumine, and Fetterman, of Pittsburgh, on the part of the Commonwealth, and by Montgomery, Gibson, Hart and Brady for defense.

After amending the bill of indictment, which was defective in one or two points, the prisoner was arraigned, and plead "not guilty." The forenoon was entirely taken up in selecting a jury, and immediately after court commenced for the afternoon session, the examination of witnesses commenced. Up to the present time eight witnesses have been examined. I will write you again to-morrow.

[By Telegraph to the Pittsburgh Gazette.]

MOBILE, May 22.—An order was issued this evening, by direction of Major General Pope, deposing the present Mayor and Chief of Police, and appointing Gustavus Horton Mayor, and Colonel Dimon Chief of Police.

MOBILE, ALA., May 22—Ex-Mayor Withers, in a letter to Colonel Shepherd, says he submits to the argument of the bayonet and vacates his office. He adds he was elected to office while a paroled prisoner, and was not allowed by the military to discharge its duties until he had been pardoned by the President and had taken an oath to support the Constitution and Government. He says during his continuance in office, he had not been untrue to the letter and spirit of his oath, and solemnly protests against the imputation implied by his removal. He, in conclusion, thanks Col. Shepherd for the uniform kindness and consideration with which he has been treated.

Intrigues at the Paris Exposition.

During the excitement which is created by political and musical events, the war of the piano manufacturers in the exhibition goes on fiercely. The superiority of the Steinway pianos over all others exhibited has been so universally acknowledged by the English, French, and German piano makers, and by the artists and the public in general, that there can hardly exist any doubt whatever of their being awarded the first gold medal; but the war has taken another aspect. The French manufacturers who wanted to save the old system of straight chords in grand pianos, and saw that the Steinway system threatened to effect a revolution in the old system, concluded to withdraw from the contest, and to give their assistance to the American pianos, which are made with straight chords, and which are a great deal better than the French pianos. It was proposed as an offset to the Steinway system that *two* gold medals should be given to America. When this was rumored, the German piano makers, and the French, with the exception of two firms, entered a solemn protest against the plan, and while they did not dispute in the least the justice of giving the first gold medal to the Steinway pianos, they averred that the American pianos of the old system did not possess the qualities which would entitle them to the gold medal, especially since the square and upright pianos of the American firm, which represents the old system, are decidedly bad instruments. Pleyel and Herz, the two great Parisian piano manufacturers, fear more from the competition of a French or German manufacturer, who would obtain the medal, than from an American who constructs pianos after their system, and, of course, they give all their aid to these American pianos, so that, if these pianos receive a medal, it will be more from the fact of the influence of Pleyel and Herz than from the merits of the piano themselves. Thus the battle stands now, undecided yet, but soon to be won by either party.—*Corres. N. Y. Weekly Review.*

EDUCATION OF SOUTHERN GIRLS.—A society has been formed in Baltimore upon the following basis:

"I. The society shall be called 'The Society for the Liberal Education of Southern Female Children,' and shall have for its members all ladies who shall contribute five dollars per annum towards its support.

"II. The object of the society shall be the education and support of female children from the South, whom the calamities of war have deprived of other means of education, and whose families and friends shall be willing to entrust them to the society to be cared for, and educated in the religious faith approved by their parents or nearest friends."

—Out of thirty-six steamers which now traverse the Atlantic just four carry the American flag and are American steamers. This is all the war has left us. The Alabamas, built, equipped and backed by foreign powers, have succeeded in sweeping American commerce from the ocean, leaving only the Arago and Fulton, running to Havre, and the Atlantic and Baltic, running to Bremen, all owned by an American company, as the sole remaining representatives of American commerce. They have been kept afloat thus far by receiving from our Government the postage on letters they carry to Europe. But this is at an end.

—In the Munich *Punch* there appears a sketch of the Austrian Minister, M. Buest, receiving a Bohemian deputy, and the following dialogue is appended: "M. de Buest: Monsieur de la Teheque, I am enchanted to make your acquaintance. I venture to hope that we shall become the best of friends. Le Bohemien: Then say after me the word Pzlmtipipstrsl. M. de Beust: But it is impossible. Le Bohemien: Then you are a bad Minister for Austria, and I have the honor of bidding you good morning."

Rev. R. Z. Willson was re-elected Clerk; Rev. H. H. George Assistant Clerk.

The hours of session were fixed at 9 to 12 A. M., and 3 to 5½ P. M.

The Moderator's alternate to preach the opening synodic sermon being absent, Synod ordered that the sermon to be preached by Rev. H. H. George on the "Influences of the Spirit" be heard instead of the synodic discourse.

The place of the next meeting of Synod was fixed at New Concord, Ohio.

The time—the 4th Wednesday of May 1868, Synod then took a recess till 3 P. M.

After recess, the Moderator, Rev. J. R. W. Sloane, announced the Standing Committees. The Chairmen are as follows:

On Presbyterial Reports—Rev. J. R. Thompson.
Discipline—Rev. S. O. Wylie.
Missions—Rev. J. M. McDonald.
Theological Seminary—Rev T. P. Stevenson.
Signs of the Times—Rev. A. Slater.
Foreign Correspondence—A. Stevenson, D.D.
Finance—Rev. J. McCracken.

Rev. J. P. Lytle, delegate from the United Presbyterian Assembly, addressed the Synod.

After friendly salutations, he expressed gratitude for the earnest and faithful testimony of the R. P. Church in behalf of the royal prerogatives of Jesus Christ.

He spoke of broken testimony of the Protestant churches against their common foe, and urged more united action. As faithful witnesses for Christ we must avoid two extremes: Bigotry, on the hand, and in difference or detestible neutrality, on the other. This our covenant fathers denounced. Our motto should be, let brotherly love continue, and let us contend earnestly. The spirit moves to union among the churches. There is great necessity for tightening the bonds which unite us, and we dare not trifle. Who trifles, trifles with God.

In the late movement to secure a recognition of the rights of Jehovah and his son, the mediator, in the Constitution of the Government, we can co-operate. It embraces the present truth. As God is in it, he will make it triumphant. We hope to this great nation yet greater, when Christ shall put his enemies under his feet.

We have the greater need of co-operation because of the mighty flood of the enemy coming in on every hand.

Providence and prophecy concur in the conclusion that the church is entering upon her last and greatest trial. The enemy is marshalled in the columns—Rationalists on the one hand, and Ritualists on the other—Infidels and Romanists of various forms. We fear the most from the last. Infidelity never can be the religion of the masses. The advance of the Rationalists is greatly to be feared, but the Popery of the Protestant churches is to be feared most of all. Hence we should draw more closely together than ever. It is profitable and pleasant to pass behind the hosts of God and encourage them to victory.

To the address the Moderator replied. After a pleasing reference to reminiscences of college days, he expressed his pleasure in returning the salutations of the U. P. Church. The two have a common early history. Our covenanted fathers were associated in the battle against a common foe when they flung to the breeze the motto, "Christ's Crown and Covenant." We now agree that the revival of the principles of the covenants of Scotland will be the revival of the church.

We look forward to the time when all shall be one; and the time is come when the bonds that unite us should be tightened. We feel that some barriers separating us from other denominations are not so great; and yet there is in this church movement towards organic union. Our position has been unchanged for two hundred years. We must not lay down any part of our testimony.

He spoke in hopeful terms of the present movement to amend the Constitution of the United States so that it may acknowledge the authority of God, His Son, and His Law. It has been indorsed by nearly all the great men in the New York churches. In this great movement we have the leadership of honored names in the United Presbyterian Church. While there may be no organic union, yet there may be true Christian feeling. The great Protestant church is one. If we cannot fully agree in all points, we can go forward in co-operation to convert the world.

Rev. R. Z. Willson returned thanks to the Delegate for the address, and offered the following:

Resolved, That this Synod has heard with great satisfaction the able and faithful address of the Delegate of the U. P. General Assembly, and fully reciprocate the Christian and hearty salutation of that body, and express our earnest hope that the divisions which now exist in the Church may soon entirely cease; and while we will adhere to the truth, as maintained by us, we will cooperate with all suitable efforts to maintain the truth an promoted union.

On this resolution several members spoke at length.

Rev. A. M. Milligan said that in the Bible Society we have an example of what church combination can do. It gives the power to put the Bible into more tongues than could otherwise be done.

While we may not be ready for organic union, we should have a well understood arrangement for the acomplishment of the reform of the Constitution. If the churches would unite in demanding it, it would be granted. The action of a few may be laughed at. Let the churches speak together and politicians will act. If the churches would unite in this reform the result would be as great and happy as in the Bible Society.

Rev. J. Crozier also spoke with earnestness. He had listened with great pleasure to the utterance of sentiments, by the delegate, that must prevail. The public mind would not hear the voice of God before the war, though he compelled the nation to hear. The testimony in reference to slavery has prevailed. Now God says, the authority of the Saviour must be recognized and established in the Constitution and Administration of this nation. If it will not hear, God will compel them by his judgments. He is now preparing the minds of his people to assert the universal Headship of Christ over all. We need harmonious action, interchange of sentiment and united prayer for the spirit and the work is done.

The resolution passed unanimously.

Rev. H. H. George was then appointed delegate to the U. P. Assembly now in session in Xenia, Ohio.

Rev. J. Sproul stated the action of the Pittsburgh Presbytery in asking Synod's permission to license a Theological student who had not taken the regular course of study in the Theological Seminary.

On the motion to grant leave, a spirited discussion arose, many objecting. On fuller explanation the motion prevailed.

Synod spent some time in receiving and disposing of papers—referring them to their respective committees. One was a memorial from some members of the Allegheny congregation in reference to questions that had been before the Church before and during the war—as Occasional Hearing, Repeating Tunes, Proclamation of Marriage, &c.

Another paper from Rehoboth congregation, was of like import.

On a motion to refer the memorials to a special committee, discussion arose. This motion did not prevail, and the papers were laid on the table for the present. They may be called up again.

Inquiry was made by a member of the Committee on Foreign Correspondence respecting the letter from the Synod of Ireland, which was not to be found at last meeting. Dr. Sproull said that the letter had been found among the papers of the late Prof. Willson, whom he exonerated from all intention of withholding it. It would be put into the hands of the Committee for reply and publication.

Rev. T. P. Stevenson, Rev. Dr. Scott, and an elder were appointed a committee to report a minute on the death of the late Prof. James M. Wilson.

The report of the Committee on Unfinished Business was taken up for disposition. While under consideration, the hour for adjournment arrived.

The Synod will meet this morning at nine o'clock.

Pittsburgh and Connellsville Railroad Case.—A dispatch from Harrisburg states that the Supreme Court has refused to fix a day to argue the motion for a mandamus to compel the Pittsburgh and Connellsville Railroad Company to desist from the construction of the five miles of their road between Smithfield and the State line. It is now thought his motion will not be argued until the meeting of the Court at Pittsburgh. Attorney General Brewster is concerned against the motion.

Fight about the Boat Race.—R. O. Donagnan appeared at the office of Alderman Lynch, yesterday afternoon, and instituted legal proceedings against one John Webb, for assault and battery. The parties it is alleged, got into a dispute at the Monongahela House, about the race, which resulted in a quarrel. Webb struck the plaintiff quite severely. A warrant was issued.

THE BOAT RACE.

The Referee Decides in Favor of Brown.

The excitement concerning the scull boat race between Hamill and Brown increased in intensity during Tuesday evening, owing to an unfortunate occurrence—the withdrawal of Hamill from the contest when about three-fourths of the "course" had been traversed. We regard the race as a most ridiculous farce, reflecting no credit, in a "sporting" view, upon either of the contestants. Instead of a fair, honest test of their respective merits as oarsmen, both seem to have acted unfairly. Brown having the advantage in the start, had the right to use it as far as the "rules" allowed, and it appears did, while Hamill also "took all the chances" and acted in a manner which precludes him from just complaint. Brown, in view of the imputation under which he rested of having made overtures to sell himself and friends, had resolved "to do or die," and Hamill, in excess of confidence, had laid wagers on the result to the extent of three to one. Besides his pecuniary interest thus involved, he had held, and proposed to retain, undisputed sway as the American champion. In the belief that there was an honest intention on the part of each to win the race, and that what resulted was not all for "bunkum," we repeat what we said yesterday, there never was a race projected wherein more intensely bitter feelings were engendered, entirely foreign to the principle of "may the best man win." Therefore, we say it was a ridiculous farce, and as far as a fair test of the merits of the rival oarsmen is concerned, the result is unsatisfactory—through the fault of our champion, Hamill, according to the decision made, and by which all parties under the "regulations" must abide.

Brown took the lead from the start, and kept it throughout, Hamill not once showing ahead. Having the lead, Brown was afforded opportunity to "jockey" Hamill, and did so. Hamill resorted to the same tactics. and thus the struggle was kept up, the boats keeping in close proximity, the oars occasionally "locking," and at the buoy Hamill ran his boat against that of Brown. On the return, it is said, Hamill begged to be allowed a clear course, feeling, perhaps, that his chances for success were diminishing, from the determined efforts of Brown to maintain his advantage. On behalf of Brown it is claimed that Hamill crowded him, and that at the point where the alleged "foul" occurred he was obliged to do what he did in order to keep on his course. But we need not discuss further this question, as it has been decided by those more conversant with matters of the kind than we care to be.

Hamill's advocates, we understand, concede the point that Brown is the superior oarsman for a shorter distance than five miles, and in the race their hopes were based upon this view. While Brown might take the lead and perhaps keep it for half the "course" at most, they anticipated that Hamill's superiority would show in the remainder, and that he would, by reason of his advantage in "wind," or endurance, gain the race. On this point they and the public remain unconvinced, through the fault of the "champion." The race, as far as it went, it cannot be fairly gainsayed, demonstrated Brown's superiority as an oarsman. Many gave up any hope for Hamill when they were fairly under way, and the opinion very generally obtains that Brown could have fairly won the race. Under this state of feeling, it is not to be wondered at that the claim of "foul" was regarded as put in as an excuse, instead of a candid acknowledgment of defeat. Boat racing in this locality has been gradually falling into disrepute, and the contest of Tuesday, we feel pretty certain, will not add much to the enthusiasm on the subject.

THE DECISION OF THE REFEREE.

The judges selected were Robert Elliott, on the part of Hamill, and Daniel Kinzer on the part of Brown, and the referee was C P. Caughey. A meeting was held Tuesday evening to decide upon Hamill's claim of "foul," but no decision was arrived at, the referee concluding to reserve it until Wednesday at ten o'clock, in anticipation of obtaining further evidence. Hamill appeared at the meeting, but Brown did not, having, as we stated, departed in the night train homeward.

At noon yesterday Mr. Caughey decided as follows:

"After having received the fullest testimony available on both sides, concerning the alleged "foul" in the sculling match between Walter Brown, of Portland, Maine, and James Hamill, of Pittsburgh, Pa., rowed at Pittsburgh May 21st, for the championship of America and a purse of $2,000, and having carefully and impartially weighed and compared all the facts presented, I have decided the race in favor of Walter Brown, and all interested will govern themselves accordingly.

"C. P. CAUGHEY."

From this decision Mr. Elliott, Hamill's judge, stated he would appeal, which will, however, be of no avail, other than perhaps to cause delay in the handing over of the stakes.

The Fogler Confession.

The five witnesses who attested the document, publish a card in the Washington *Reporter*, in which they certify that Fogler claimed the entire authorship for himself; that it was in his handwriting, with the great inaccuracies as to spelling and punctuation; and that with a view to its publication as soon as possible after the execution took place, a copy was made for the purpose of being placed in the hands of the printer, special pains being taken to make no alterations whatever, save to correct the orthography and attend to the matter of punctuation, in which latter respect the original was wholly deficient. The confession, as published, is an exact copy of the original, the only difference being in the particulars already mentioned. The manuscript, as written by Fogler himself, is still at the store of Robert Dougan, where it is open to the inspection of any one who may want to compare it with the confession as given to the public through the papers.

Assault and Battery Cases.

Sally McGraw made information yesterday before Alderman Humbert against Margaret Kelly, for assault and battery. It appeared that defendant's daughter did severely beat Sally McGraw's child, inflicting severe injuries. Meanwhile Sally McGraw appeared before said Alderman to answer a charge of disorderly conduct lodged against her by Margaret Kelly. They have been committed for a hearing.

J. Lawrence made information yesterday before Alderman Humbert against David Nelson for assault and battery. A warrant was issued for his arrest.

Joseph Richards made information before Alderman Thomas against John Nighthour, for committing an assault and battery on his little boy. A warrant was issued.

Joseph Leech appeared before Justice Barker to answer a charge of assault and battery made against him by William E. Richardson. The defendant was committed to jail in default of $300 bail.

A Boat Race Fight.

During the race on Tuesday two men, named Nicholas Hoffman and David Wilson, residents of the Fifth ward, got into a difficulty on the levee, in regard to the merits of the two contestants for the championship. A fight ensued, in which it seems both parties were somewhat used up. Hoffman appeared before Alderman Strain yesterday and preferred two charges against Wilson, one for assault and battery with intent to kill, and another for a breach of the peace. He alleges that Wilson choked him and then fired a pistol at him, the ball taking effect in a wall close by, and that afterwards he threatened to kill him. A warrant was issued for the arrest of defendant.

False Pretenses.

Joseph A. Burt made information yesterday before Alderman Strain, charging Wm. Hodgiss with obtaining butter from him to the value of twenty-eight dollars by false and fraudulent representations. Deponent alleges that Hodgiss, by representing himself as a manufacturer of jellies and other delicacies, obtained the amount of butter mentioned above from him on credit, in the month of October last, since which time he has failed to pay the amount claimed. Deponent avers that he believes the representations of the accused to have been false, and made with the intention of cheating him. A warrant was issued for the arrest of defendant.

The Storm of the 11th of August, last year, was very severe in many parts of the country. At St. Clairsville, Ohio, a large barn well stored with tools and grain, belonging to B. W. Hoge, was struck by lightning and consumed. Mrs. Seidler, of Wheeling, was killed by lightning. The electric current tore out a side of the house and set fire to it. Mr. H. Laup, on the island near Wheeling, was killed by lightning. Numerous other accidents occurred during the same storm, and altogether, in Eastern Ohio and Western Pennsylvania five women and two men were killed. The Copper Tubular Lightning Rod, with Spiral Flanges, manufactured in this city by Lockhart & Co., will save all kinds of buildings from damage by lightning.

The Members of the Monumental Association, and all others who desire to assist, are requested to assemble in City Hall this morning, to commence decorating. The Association will hold a meeting in the afternoon, at half past two o'clock, for the transaction of business.

Larceny of a Hat—William McLaughlin appeared before Alderman Lynch charging Thomas McCambry with stealing his hat. Defendant was held for a hearing.

ANOTHER MURDER.

Finding of the Body of Middleton, the Missing Treasurer of Beaver County.

Last October Thomas Middleton, Esq., the Treasurer of Beaver county and a resident of Fallston, disappeared mysteriously, and although diligent search was made for him, no clue to his whereabouts could be discovered. The disappearance did not attract much attention till about a fortnight after, when circumstances led to the belief that he had been foully dealt with for a large sum of money in his possession by suspected parties residing in the neighborhood of Beaver. They were arrested, but the authorities having no information of sufficient importance to hold them, discharged the prisoners, and the belief obtained that the Treasurer had absconded.

Yesterday we learn that the body of the missing man was found floating in the Ohio river, below Steubenville, very much decomposed, but not so far as to prevent full identification. Mr. J. B. Smith, of Rochester, Pa., with members of the family of the deceased, visited Steubenville, recognized the body and took it home to Fallston, for burial. Two stabs were found on the breast, one penetrating the heart. The right hand was also severely cut, as though the murdered man had made desperate resistance. We are without any further particulars, and have not heard the result of the inquest held upon the body. Beyond any doubt a horrible murder has been committed and the authorities should use their best endeavors to ferret out the perpetrators.

Arrest of Thieves in Washington, Pa.

For some time past a system of thieving has been going on in Washington, in which the merchants of the town were the principal sufferers. Business houses were pilfered, and goods stolen, without any clue to the perpetrators. Some of the victims, who had suffered pecuniary loss at the hands of this band of outlaws, secretly sent for a well known detective of Cincinnati. The detective, under guise of a fast young man, took lodging at the hotel in Washington, wore fine clothes, made a big show of money, and had the every semblance of a sporting character. The bait took with the unknown thieves, who soon made the acquaintance of the detective and took him into their confidence. A store room had been rented for the purchase of grain, in which the detective was duly initiated. The *modus operandi* being to secrete stolen goods, such as boots and shoes, dry goods, groceries, &c., under a pile of oats in the rear of the store room, until an opportunity offered to ship them into market. The ruse was kept up by the detective until arrangements were made for the arrest of the entire party, on Sunday, the detective among the number. The denouement created considerable excitement in the town and county, as a number of young men of respectable connections, residents of the county, were implicated in the affair. This, together with the numerous murders and deeds of crime, has given the old county a very criminal notoriety.

Amusements.

NEW ACADEMY OF MUSIC.—Mr. James E. Murdock, whose reputation is daily increasing in our community, will appear this evening as "Hamlet" in Shakspeare's celebrated tragedy. In all his characters Mr. Murdock shows an incontestable supremacy. His success last night as "Benedict" in "Much Ado About Nothing," was what we expected. The public was pleased. To-night we may expect a crowded house.

NEW OPERA HOUSE.—The Black Crook continues to be an irresistible attraction, and every night the Opera House is crowded with spectators eager to witness its presentation. The beautiful scenery, fairy grottoes. water-falls, lakes, with fairies and horrid phantoms appearing, and a display of what art may produce, leave upon the mind the greatest impression. Those who have not witnessed the Black Crook are unable to form an idea of it.

PITTSBURGH THEATRE.—This resort of amusement continues to attract every night a crowd. The variety of pieces, and their excellence, deserve certainly a special favor of the public and the press. The "Mutton Trial," which is to be represented tonight, has always been received with admiration.

VARIETIES THEATRE.—At this popular place of amusement the "Black Cook" continues the attraction, and is regarded as an admirable take off to the "Black Crook." Go and see it.

Musical and Literary.

Elsewhere we publish the announcement that the Philomatic Literary Circle of Allegheny city will hold a grand literary and musical entertainment at the Academy of Music, on Monday evening. The programme is very attractive and doubtless a large audience will be in attendance. The literary exercises will embrace original orations, declamations and histrionic sketches, while the musical part of the entertainment, under the direction of the talented young artist, Prof. Herman T. Knake, will be of the highest character. In connection with this notice we might remark that the Academy had been engaged by the gentlemen of the Philomatic Circle previous to the lease granted Messrs. Hall & Burke, of the beautiful hall as a permanent theatre. They courteously gave way and will have no performance that night, resuming on Tuesday. The excellent orchestra of the Academy will be in attendance at the entertainment of the Philomatic Circle.

The Alarm of Fire Last Night.

An alarm of fire was sounded last evening about half-past nine o'clock from box 24, corner of Fifth and Smithfield streets. We found, on repairing to the spot, that the alarm was caused by a defect in the flue of M. A. Evans & Co., which connects with the chimney of the fruit stand next door, owned by an Italian named Kavanagh. Mr. Kavanagh's loss consists principally in having a hole cut through his ceiling, where the flue connects with the chimney, and a few buckets of water thrown over his goods in that apartment. His loss will probably amount to fifty or sixty dollars. The fire was extinguished without any further damage, except that some of the folks in Mr. Kavanagh's house had already retired, and their night's repose would be considerably affected by the noise and confusion about them. The fire companies were promptly on the ground but their services were not required.

Improved Weed Lock Stitch Sewing Machine.

Also, Finkle & Lyon's. These machines have been too long before the public, and are now too well known in the family and in every variety of sewing manufacture to require a description here. The fact that we have always been able, without embarrassment, to warrant our machines to give better satisfaction than any other machine in the market, or money refunded, is the highest evidence we could possibly give of their absolute superiority. They will do a range and variety of work never before attempted upon a single machine, stitching from fine gauze to thick cloth and leather, and over-seams at full speed, without any change in feed, needle or tension, and the best reference and cheapest by twenty per cent. R. H. Long, Agent, No. 112 Grant street.

New Barber Shop.

Elsewhere is the advertisement of the opening of a new barber shop and bath house, by Messrs. Fleming and Buckner, under the Academy of Music, on Liberty street. The gentlemen have eminent tonsorial experience, and we can safely promise the greatest satisfaction and pleasure to all who favor them with their patronage. The saloon is first class and in every respect worthy unlimited custom, which we hope will be extended the enterprising and liberal proprietors.

The attention of our readers is directed to the advertisement in another column of Mr. R. P. Getty, wholesale and retail grocer and dealer in teas, wines and liquors, northeast corner of Ohio street and the Diamond, Allegheny. Mr. Getty has long enjoyed a high reputation in his business, and no where else can a fresher or better stock of choice family groceries and pure liquors be found, in our sister city. We earnestly commend him to the patronage of our readers.

The Rev. J. T. Hecker.—This Reverend gentleman will deliver a lecture in St. Paul's Cathedral, this evening at 7½ o'clock, for the benefit of the free schools attached to the church. The subject of the lecture is "The Religious Questions of the Country." The Rev. Mr. Hecker is connected with the Paulist Order of New York, and is considered one of the ablest members of it. The Paulists are almost exclusively converts to the Catholic Church.

Grand English Concert.—Elsewhere our readers will find the programme for the grand English Concert which takes place to-night at City Hall, by the pupils and under the auspices of Prof. Clement Tetedoux. A rare musical feast may safely be anticipated by all who attend. The net proceeds are to be applied to the monumental fair fund.

The Pittsburgh Gazette.

THURSDAY, MAY 23, 1867.

A Republican State Convention will be held in Georgia on the Fourth of July next.

The Pennsylvania Railroad Company is negotiating to obtain the management of the Little Miami, Columbus and Xenia Railroads.

The appointment of Mr. Bancroft as Minister to Prussia, is creditable to the President. In accepting, Mr. Bancroft has rendered the country a service.

The Court, it seems, will be ready on Monday to proceed with the trial of John H. Surratt, but the government has not yet determined who shall conduct the prosecution.

Mr. Kelley's Speech at Mobile, as reported in the newspapers of that city, do not sustain the charge made against him of provoking assault. He was perfectly frank and explicit, but good-tempered and manly. So, too, his speech at Atlanta was so excellent, both in manner and matter, as to draw warm commendations from many Southern gentlemen who listened to it.

The Supreme Court of this State has refused to fix a day to hear the argument on the motion of Mr. Gowan, for a mandamus to compel the Pittsburgh and Connellsville Railroad Company to desist from constructing the five miles of its road between Smithfield and the State line. It is thought the hearing will go over till the meeting of the Court in this city. Attorney General Brewster will contest the motion, but not in his official capacity.

When the French entered Mexico to seat Maximilian on an imperial throne, shocking barbarities were inflicted on the Liberals who resisted the invasion. The wheel of events has revolved, and the Liberals, now in the ascendant, are making reprisals that thrill the world with horror. Is there a sane man in the United States who believes this to be the best way for the Mexicans to adjust their differences, and seek to establish the dominion of law and order? It seems hardly possible such a man can be found; and yet, judging from the tone of many of the journals, the Mexican method of dealing with national troubles appears to be in high favor.

The publication of Booth's Diary, yielded to the natural curiosity and importunity of the public, throws no additional light on the great tragedy. He exults over the consummation of his crime as over a high duty grandly accomplished. This morbid or abnormal mental and moral condition is not a new development. It appeared in a letter addressed by him to a Philadelphia friend, and printed shortly after the assassination. It has often been disclosed in the political and religious dramas which darken the pages of history. The religious persecutions and the political butcheries which make European annals for eighteen hundred years an appalling nightmare, originated in this same perversion of intellectual processes and of moral sentiments. That crimes have thus been held to be virtues, neither change their nature, nor lessen the guilt of the perpetrators.

When President Johnson turned his back on the Republican party, and entered into a conspiracy to destroy it, he was followed by the *Commercial*. What was the point on which he and it broke faith with their former friends, and started for the camp of the common enemy. They changed their views as to the proper way of dealing with rebels and revolted States. They proposed to heal all the hurts of the nation by an outburst of generosity; by restoring the Southern people at once to all their former rights; and by covering the past with a mantle of oblivion. The *Commercial* went so far as to outrage the loyal sentiment of this community. It poured extravagant laudation upon the President, upon Senator Cowan, and all the men who were prominent in their defection from sound principles. It only ceased when it found its business was falling off in consequence of its culpable policy.

With what show of decency does such a journal pitch into Mr. Greeley for signing Mr. Davis' bail-bond? Do its conductors imagine the people of Western Pennsylvania have lost their memories? or does it expect by brazen impudence to silence their reproaches?

PROGRESS OF INVENTION.

Any thinking man who will walk through a well appointed machine shop, and observe the massive yet beautiful automatic machines working away at whatever their designer intended they should do, with a degree of steadiness and celerity which must be seen to be understood, cutting cast iron, wrought iron and even steel as noiselessly, and apparently as easily, as if they were so much putty, and with a precision but one remove from absolute perfection, cannot but be equally astonished and pleased. Whether the work be turning, planing, drilling, or whatever it may be, the man who has the oversight of the machine stands at his ease, although attentive, like a master over a servant, assured that if he does his part properly his metalic servant will perform his part of the operation aright.

We hardly realize how much of our civilization we owe to these admirable machines. But for them no man would ever have seen Philadelphia and Pittsburgh in the same twenty-four hours; for the construction of a locomotive would have been an impossibility without them. No human skill is adequate to the fabrication of such a machine without the aid of these automatic tools. Let the observer in the machine shop, after watching the operations of these machines turn to a workman, no matter how skillful, who, with hammer, chisel and file is doing some work upon which a machine cannot be brought to bear, and then he will see the difference.

Smiths' Industrial Biography has a very interesting chapter on "Mechanical Inventions and Inventors." The difficulties encountered by James Watt, the inventor of the steam engine, for want of machine tools, is graphically set forth. We quote a few sentences:

"Writing to Dr. Robback, [he was then operating in Glasgow,] he said, 'you ask what is the principal hindrance in erecting engines? It is always the smith-work.' His first cylinder was made by a whitesmith, of hammered iron soldered together; but having used quicksilver to keep the cylinder air-tight, it dropped through the inequalities into the interior, and played the devil with the solder.' * * * His next cylinder was cast and bored at Carron, but it was so untrue that it proved next to useless. The piston could not be kept steam tight, notwithstanding the various expedients which were adopted of stuffing it with paper, cork, putty, pasteboard and old hats. Even after Watt had removed to Birmingham, and had the assistance of Boulton's best workmen, Smeaton expressed the opinion, when he saw the engine at work, that, notwithstanding the excellence of the invention, it could never be brought into general use, because of the difficulty of getting its various parts manufactured with sufficient precision. For a long time we find Watt, in his letters, complaining to his partner of the failure of his engines through villainous bad workmanship! * * * Nearly everything had to be done by hand. The tools used were of a very imperfect kind. A few ill-constructed lathes, with some drills and boring machines of a rude sort, constituted the principal furniture of the workshop. * * It was not until the invention of automatic machine tools that the manufacture of the steam engine became a matter of comparative ease and certainty. Watt was compelled to rest satisfied with imperfect results, arising from imperfect workmanship. Thus, writing to Dr. Small respecting a cylinder eighteen inches in diameter, he said: 'At the worst place the long diameter exceeded the short by only three-eighths of an inch.' How different from the state of things at this day, when a cylinder five feet wide will be rejected as a piece of imperfect workmanship if it be found to vary in any part more than the eightieth part of an inch in diameter!"

It is just one hundred years since Watt was struggling in Glasgow with his first experimental engines. In 1768 he removed to Birmingham and entered into co-partnership with Dr. John Roebuck, who relieved him of pecuniary embarrassment and enabled him to bring his great invention to such a degree of perfection as secured it against failure and abandonment, and in some measure rewarded the indefatigable inventor for his anxiety and toil. It was Watt's great invention, more than anything else, that created the necessity for the various and admirable automatic machine tools with which the world is now benefited and blessed; and as a true old proverb has it, "necessity is the mother of invention."

Mr. Delemar, of the Bureau of Statistics, has been experimenting with the machinery of the Treasury Department, having in view the taking of the census of 1870. It is said that, through the admirable and perfect organization of the divisions for the collection of Internal Revenue, he has, with but little labor and no expense, secured an accurate census of the population of our country as it stood at the close of 1866. We do not believe that Mr. Delemar has arrived at figures which can be relied upon as strictly correct, but in round numbers his result may prove sufficiently accurate for ordinary calculation, and speculation upon the growth of the country.

The present census shows the total population of the thirty-seven States in November and December last to have been 34,100,255, and of the States and Territories taken together, 34,505,882. In a majority of the Southern States there has been a decrement of population, in the Eastern States a small increase, and in the Western States a large increase. The results are supported in every instance by the State censuses of 1865, so far as taken.

The comparison with the census of 1865 is as follows; Thirty-seven States, a few of which were then Territories, numbered 31,218,021 inhabitants, and the total States and Territories 31,443,321. The total increment since 1860 has therefore been 3,062,561, which, in view of the late extended conflict, demonstrates the extraordinary recuperative powers of the country.

Henry P. Taylor, an experienced young business gentleman of Louisville, employed with the Merchants Express Company, committed suicide on Monday last, by blowing out his brains. No cause is assigned for the rash deed.

The body of the heroic pilot, Tom Montague, who at the wheel went down on the ill-fated steamer Fashion, has been recovered from the river at Baton Rouge.

Daniel Smith, one of the oldest and most respected citizens of Louisville, died suddenly of apoplexy on Monday.

FOREIGN ITEMS.

—The Swiss Federal Council has created a mission at Berlin. M. Heer is to be Minister.

—The Sultan has intrusted to Prince Michel the command of the four Servian fortresses.

—H. D. Cooke, Jay's brother, is also in governments deeply enough to have built and given away a church which cost $26,000.

—The Austrian cavalry service is to be materially reduced. A large number of officers will be left without duty and salary.

—It is said that the Marquis of Westminster advanced £50,000 for the new paper in London, *The Day*, and is joint proprietor with Alderman Allen.

—The Secretary of War in England has authorized a reward of £10,000 to Major Palliser for his improvement in projectiles, and another £5,000 will be proposed in the next year's estimates.

—The French Government has instructed its agents at Toulon not to be over critical in their examination of young men who volunteer for the naval service. It is hoped that a conscription of seamen will not be necessary.

—The widow of Mr. Heywood, a Liverpool banker, who lately died at Bath, has lately offered to Dr. Winslow, the well known Baptist minister, the chapel in which he at present preaches, on condition that he will read the Church Liturgy there. If he will not do this, the building will be put up at auction.

—An incumbency of an unusual duration has just been brought to a close by the death, in the ninety-first year, of the Rev. R. Dickson, who, for no less than sixty-eight years, has been rector of Kilkeedy, near Limerick, Ireland. Up to the time of his last illness, the venerable gentleman retained possession of all his faculties, and took part last month in the celebration of the Holy Communion in his church.

—The London *Chronicle* says that the results of the Jamaica prosecutions are not to be measured by the fact that the Grand Jury have thrown out the bills against Col. Nelson and Lieutenant Brand; and adds: 'It is not a trifling gain to have called forth so powerful and emphatic a re-assertion of the great historic principles of English liberty as that contained in Lord Chief Justice Cockburn's charge.

—In 1852, there were in Prussia 68,000 acres of land on which tobacco was cultivated; in 1861, only 41,192; in 1862, 43,806; in 1863, 55,700, or the 33.03 per cent. of the whole tobacco plantation of the Zollverein. But, owing to the recent increase of the Prussian territory, the number of acres put into cultivation in 1866, amounted to 61,762, or the 36.62 per cent. of all plantation of the Zollverein. The taxes on that production in 1852 were 132,000 thalers, and in 1864, only 85,000.

—The Hungarian Guard has just been re-established. Formerly it consisted of young Hungarian nobles, who had the rank of Lieutenant, and were subsequently transferred to the army. They were supposed to be educated for their profession during their service as Guards in Vienna. In 1848 the entire Guard took part in the Hungarian rebellion, and was subsequently dissolved. It will in future be composed of officers who have served up to the rank of Captain, and appointments will be given as rewards for good service. The uniform of the Hungarian Guard is exceedingly handsome, consisting of a scarlet national costume, braided with silver, with a tiger-skin thrown over the shoulders. The horse trappings are silver and green. General Haller, late Aulic Chancellor of Transylvania, has been appointed Captain of this "Noblegarde," as it is called.

—Professor Von Pettenkofer is said to be satisfied with the results of his investigations, made last summer, in the cities which have been visited by the cholera. Meantime, the scientific interviews with the professor Grisinga Wonderlich and the Englishman McPherson, have resulted in a unanimous agreement of views upon the same subject. Professor Von Pettenkofer, as we are told, is to lecture on these, his recent experiences, to the medical club of Germany. Connected with this report is the surprising communication from Vienna, where Doctor Klob Hess has discovered by the help of a glass, which magifies 1000 times, in the excrements of cholera patients, millions of microscopical plants, which differ very little in the external appearance from those found in our native toadstools. There is scarcely any doubt that this forms the basis of that terrible disease. We know that under favorable circumstances, these plants multiply in a prodigious manner and exercise a hitherto unknown influence upon the human system. These facts are corroborated by the observation of the most celebrated physicians, who assign a like origin to the typhus, small pox, scarlet and other infectious diseases.

Full Text of Booth's Diary.

The following is a copy of the writing which was in pencil found in the diary taken from the body of J. Wilkes Booth.

(Official copy.)

J. Holt, Judge Advocate General.

"Ti amo," April 13th and 14th. Friday the Ides. Until to-day nothing was ever thought of sacrificing to our country's wrong. For six months we had worked to capture, but our cause being almost lost, something decisive and great must be done. But its failing was owing to others, who did not strike for their country with a heart. I struck boldly, and not as the papers say. I walked with a firm step through a thousand of his friends, and was stopped, but pushed on. A Colonel was at his side. I shouted, '*Sic Semper*' before I fired. In jumping I broke my leg. I passed all his pickets, and rode sixty miles that night with the bone of my leg tearing the flesh at every jump. I can never repent it, though we hated to kill. Our country owed all her trouble to him, and God simply made me the instrument of his punishment. The country is not, (in April, 1865,) what it was. This forced Union is not what I have loved. I care not what becomes of me. I have no desire to outlive my country. This night, "before the deed," I wrote a long article and left it for one of the editors of the *National Intelligencer*, in which I set fully forth our reasons for our proceedings. He or the Government.

Friday, 21.—After being hunted like a dog through swamps, woods, and last night being chased by gunboats till I was forced to return wet, cold and starving, with every man's hand against me, I am here in despair, and why? For doing what Brutus was honored for, for what made Tell a hero, and yet I, for striking down a greater tyrant than they ever knew, am looked upon as a common cut throat. My action was purer than either of theirs. One hoped to be great, the other had not only his country's, but his own wrongs to avenge. I hoped for no gain. I knew no private wrong. I struck for my country, and that alone—a country that groaned beneath this tyranny and prayed for this end, and yet now behold the cold hand they extend to me. God cannot pardon me if I have done wrong; yet I cannot see my wrong, except in serving a degenerate people. The little, the very little I left behind to clear my name, the Government will not allow to be printed. So ends all. For my country I have given up all that makes life sweet and holy, brought misery on my family, and am sure there is no pardon in the Heaven for me, since man condemns me so. I have only heard of what has been done, except what I did myself, and it fills me with horror. God, try and forgive me, and bless my mother. To-night I will once more try the river, with the intent to cross, though I have a greater desire and almost a mind to return to Washington, and in a measure clear my name, which I feel I can do. I do not repent the blow I struck. I may before my God, but not to man. I think I have done well, though I am abandoned, with the curse of Cain upon me, when, if the world knew my heart, that one blow would have made me great, though I did not desire greatness. To-night I try to escape these bloodhounds once more. Who, who can read his fate? God's will be done. I have too great a soul to die like a criminal. Oh! may He, may He spare me that, and let me die bravely. I bless the entire world. Have never hated or wronged any one. This last was not a wrong unless God deems it so, and it is with Him to damn or bless me. And for this brave boy with me who often prays. Yes, before and since, with a true and sincere heart. Was it crime in him? If so, why can he pray the same? I do not wish to shed a drop of blood, but I must fight the course. 'Tis all that's left me."

Upon a piece of paper found in the diary, and supposed to have been torn from it, is written the following:

"My Dea (piece torn out.) Forgive me, but I have some little pride. I cannot blame you for want of hospitality. You know your own affairs. I was sick, tired with a broken limb and in need of medical advice, and I could not have turned a dog from my door in such a plight. However, you were kind enough to give us something to eat, for which I not only thank you, but on account of the rebuke and manner in which to" (piece torn out) "it is not the substance, but the way in which kindness is extended that makes one happy in the acceptance thereof. The sauce to meat is ceremony. Meeting were base without it. Be kind enough to accept the enclosed five dollars, although hard to spare for what we have received. Most respectfully, your obedient servant."

REPORT OF THE JUDGE ADVOCATE GENERAL.

BUREAU OF MILITARY JUSTICE,
New York, May 13, 1867.

Respectfully returned, with the copy asked for.

The "Diary" purports to be one for 1864, and the leaves cut or torn from it probably contained entries of that year, and were thus destroyed by Booth himself. It is absolutely certain that the diary is in all respects as it was when it came into my hands, and Colonel Conger, who was prominent in the pursuit and capture of Booth, after having carefully examined it in my presence on yesterday, declared its condition to be now precisely the same as when he took it from Booth's body after he had been shot, the writing in it being the same and all which it then contained. Col. Conger was examined before the Judiciary Committee of the House of Representatives to-day.

J. Holt,
Judge Advocate General.

Mr. GEORGE MUIR, of Armstrong's Coal Works, Penn township, Allegheny county, speaks as follows of the

REV. E. A. WILSON'S

Great Remedy for Consumption:

"I was reduced so low with consumption that I was unable to leave my bed, and my physicians informed me that they could do nothing more for me, my case being utterly hopeless, that I had not certainly over a month to live. At this stage I was induced to try REV. E. A. WILSON'S REMEDY, and to-day I am as well as any man in the world. If there are any who doubt this statement, they can call and see me, (as per above address) and I will give them all the particulars of my extraordinary recovery.

STRONG TESTIMONY.

Tamaroa, Perry Co., Ill., Dec. 11, 1866.

This certifies that I have used and recommended in my practice, during the last four years, HOSTETTER'S STOMACH BITTERS with perfect satisfaction, and take great pleasure in recommending them to the public.

E. H. PRICE, M. D.

Tuscola, Illinois, August 3, 1866.

Messrs. Hostetter & Smith—Dear Sirs: I use your BITTERS in my family, and consider them the best that can be procured. My wife has derived great benefit from using them, and also considers them an invaluable medicine.

Respectfully yours, G. F. MILLER.

Oxford, Warren Co., N. Y., Aug. 20, 1866.

Messrs. Hostetter & Smith, Pittsburgh, Pa.—Sirs: There is a great demand for your valuable STOMACH BITTERS in this neighborhood. We have been using them in the family for some time, and find them the best medicine of any for family use. Yours, J. N. CANDEE COLE.

Effingham, Effingham Co., Ill.

Dr. Hostetter—Dear Sir: With pleasure I can testify that your BITTERS, from my knowledge of their use in my family, and from what is said by purchasers, are far superior to any other.

Yours, &c., ROBERT G'BRAL.

PINUS CANADENSIS.

A tree which is abundant in Canada, Nova Scotia, and the more northern parts of the New England States, and is also found in the elevated and mountainous regions of the Middle States, and abounds in medicinal virtues. Dr. Swett, of Boston, has prepared a medicine from the sweet inside bark of the pine tree, called POLAND'S WHITE PINE COMPOUND, which is one of rare value in all debilitated states of the kidneys. It acts like a charm in all diseases of mucous membranes, enabling them to regain their lost tone and energy. It will be found well adapted to all those diseases, where Buchu has been tried and failed. It is likewise well suited to chronic coughs, and an infallible specific for old and debilitated cases of asthma. Many persons who at first only took a bottle of this medicine, to try, afterwards came back and got a dozen, or half dozen, which effected radical cures of diseases of the bladder and kidney of years standing.

Diabetes, a disease that has been looked upon as among the incurables, is immediately relieved by it. Notice the certificate of Asa Goodnue, published some time ago.

The *United States Dispensatory*, speaking of the pine, says: "It is prescribed in leucorrhœa, gleet, and other diseases of the urinary passages; in piles and chronic inflammation or ulceration of the bowels, in chronic catarrhal affections, and in various forms of rheumatism." It is exceedingly valuable in all gravelly affections, bloody urine, and where there is red and white sediment. It can be taken without interruption to one's usual avocations; and instead of sickening, produces a bracing, healthy power of endurance and vigor. Price, $1 per bottle; six for $5.

Ask for POLAND'S WHITE PINE COMPOUND. Sold by the gross, dozen or single bottle, at DR. KEYSER'S Great Medicine Store, 140 Wood street. ap20

District Court.

In the case of J. P. Wilson vs. J. H. Hopkins and M. D. Madigan, the jury found a verdict in favor of the plaintiff for $360.

M. K. Moorhead & Co. vs. Tomlinson, Hartupee & Co. This is a suit growing out of the construction, at this city, of the gunboats "Sandusky" and "Marietta," the defendants being the contractors, and the plaintiffs furnishing the iron, about which the controversy arose. Plaintiffs claim to have furnished a quantity of iron for which payment has been refused, on the ground that it was not of the desired quality, and that delay was caused by the necessity being created of procuring iron from other parties; also, that there were over charges in the plaintiffs' account. The amount involved is about ten thousand dollars. The case occupied the entire session, and was on trial at adjournment.

Rebel Flag Story—The Circus.

John Harrison, who claims residence in Waterford, Erie county, appeared before the Mayor Tuesday, in a decidedly much abused condition. He represented that he belonged to Haight & Chambers' circus, now exhibiting in the city, and was employed as a canvassman; that on Monday, one of the employees, Charles Brown, of Memphis, hoisted, by mistake, a rebel flag on the center pole, and ordered Harrison, the complainant, to take it down, as it did not suit in Pittsburgh; Harrison further says that he told Brown he ought to have had better sense than to put up the wrong flag, when Brown called him an ugly name and knocked him down. Following this it appears that Harrison had Brown arrested for assault and battery, for which proceeding, according to Harrison's story, three other circus men, on Tuesday evening, fell upon and beat him, placing him in the plight in which he appeared at the Mayor's office. Brown was again arrested, and with him other circus attaches, but upon the investigation of the matter a story quite different from that related by Harrison was told, and it is but fair that both sides should be heard, inasmuch as the representations first made were such as to create perhaps serious trouble at the circus. Harrison, it is said, sought employment with the circus, and came with it here from Wheeling upon the promise that he would be given the first vacancy. In his first day's experience in the city he got gloriously drunk, and was sent adrift, not exactly discharged, as he had not been employed, although paid for three days' labor. On Tuesday evening he placed himself under seats occupied by women attending the circus, intending, as he said, to enjoy "sights," but was ejected. He, however, seized the first opportunity to resume his place, and the fact being ascertained by Dr. Chambers, one of the circus proprietors, Charley Brown was directed to thrash Harrison, which he proceeded to do, not offering him any particular violence, however, as Brown maintains, until Harrison drew a knife and attempted to cut him. That Harrison was pretty severely punished, is not denied, but it is claimed that he deserved it for his gross impropriety. Taking the law into one's own hand is justifiable in no sense, and to this extent, according to their own showing, the circus men are culpable. Dr. Chambers took the trouble to show us the alleged rebel flag, which Harrison said was hoisted by Brown. Suffice it to say, that it was not the kind of a flag the rebels carried, at least not of the sort that met our observation on a number of occasions. We take Dr. Chambers word for it, and he assures us he has no such flag about the establishment.

Malicious Mischief.

About two years ago John Stewart and his wife Jane, at that time residents of Birmingham, separated for some reason or other, and John left his home and family. Some time afterwards he was charged with firing the house where his wife resided, but the indictment against him was quashed on the ground that the wife could not testify. It appears that his hatred for the former partner of his bosom has not subsided with the lapse of years. The other day, as she alleges, he came to her house and commenced breaking the windows with stones and brickbats. The wife, therefore, appeared before Alderman Strain, yesterday, and made information, charging him with malicious mischief. A warrant was issued for his arrest and, no doubt, if the facts be as represented, he will pay the full penalty for his conduct.

Run Over a Child.

Patrick Hanley made information yesterday before Alderman McMasters, charging Mike Rafferty with malicious mischief. The parties to the case are residents of Hardscrabble, and some time since, as deponent alleges, Rafferty got on a drunk, and, while driving his cart down one of the streets on the hill, ran over the little daughter of prosecutor. The parties met afterwards and had some talk over the matter, when Mike agreed to pay the doctor's bill and any other expenses that might be incurred by the injury of the child. After the recovery of the little girl, deponent, alleges he presented his bill of costs, which Mike refused to pay, and hence he brings suit on the original act of defendant in injuring the child. The accused was arrested and gave bail for a hearing on Saturday next.

The Wrong Man.

Patrick Hanlin appeared before Alderman Taylor, yesterday, and made information against a colored man, an attendant at the Mansion House, for assault and battery. He alleges that the colored man attacked him and knocked him down. Officer Bell went to the Mansion House in company with the prosecutor, and arrested a colored man, named Joseph Lang, supposed by the prosecutor to be the man who had assaulted him. When brought before the Alderman, the evidence showed clearly that he was not the man who had made the assault, and he was accordingly discharged. The guilty party still remains undiscovered.

False Pretenses.

William Leonard, Jr., a painter of this city, made information yesterday before Alderman McMasters, charging Charles Watson with false pretenses. Leonard alleges that Watson came to him and represented that he was owner of a daguerreotype wagon, and wished him to paint the same, which he did; and that when he called for his pay, defendant refused to hand over the amount claimed. He further avers it as his belief that defendant is not owner of the said wagon, and that it was his intention to cheat him out of the amount due him for services in painting the same. A warrant was issued and placed in the hands of officer Richards for the arrest of accused.

Alleged Defaulting Agent.

J. C. Adams has been prosecuted before Alderman McMasters by A. F. Chatoney, in whose employ he was, as sewing machine agent, for larceny as bailee. It is alleged that about a year since the accused was sent to Ohio to sell sewing machines, being provided with a team and wagon in good condition. During his absence no remittances were received from him, and a few days since he returned in a collapsed condition in regard to funds, and with the horses and wagon decidedly the worse for wear. Hence the suit. The amount fraudulently appropriated is placed at twelve hundred dollars. In default of bail Adams was committed for trial.

Tearing Down Bills.

Officer Brown made information yesterday before Alderman Strain, charging Hugh Fitzpatrick with malicious mischief. It appears that in February last an execution was issued and placed in the hands of the officer to levy on the goods of defendant, which he posted up, as required by law. He alleges that Mr. Fitzpatrick maliciously pulled these down. The defendant was arrested and, in default of three hundred dollars bail, committed to answer at court. This must be the old case revived, as we recollect of seeing Mr. F. under arrest on the day the information was made.

A Skiff Race.—On Saturday next, between four and five o'clock, David Martin and Harry Byram, will row a race in skiffs in the Allegheny from the Suspension to the Mechanics street bridge and return, for a wager, the amount of which has not yet been determined. A forfeit of ten dollars has been put up by each party. All bulk oil boats and "gipers" are requested to be kept out of the way. Clear track, fair race and no "fouling."

A Boy Preacher in Wales.—A boy preacher has appeared in Wales, who, according to his admirers, is to extinguish Mr. Spurgeon. This promising youth is Master Enoch Probert, who has just completed his eleventh year. On Easter Sunday he preached to crowded congregations in the Baptist chapel at Gladestry, Radnor. A local print says of him: "He has a sweet and powerful voice, which he manages well. His delivery is remarkably distinct, and his hearers were astonished at such marvellous truths from a boy of such tender years." After preaching two sermons on the Sunday, Master Probert spoke at length on the following day to the Sunday scholars.

The Adams Express Company has celebrated its twenty-sixth anniversary, whereupon the Boston *Journal* says: "The receipts of their first day's work were $3,87. Since then the company has increased and prospered. The senior, Mr. Alvin Adams, though not yet a veteran in years, is known as one of the fathers of a business which now extends from Heart's Content in the East to the Golden Gate in the West, and gives employment to thousands. Mr. Adams still retains a general supervision of the Boston office, but the details of the business are managed by his competent sons, Messrs. Waldo Adams and E. L. Adams."

Hit by a Bridge.—Wm. King, freight train conductor on the Panhandle Railroad, on Tuesday morning, while standing on the top of a car, was struck by bridge No. 4, near Skelly's Station, and severely injured about the head and face. He was taken to Steubenville for medical attendance.

A bell has been presented by A. Fulton, Esq., to the Episcopal congregation of East Liberty.

OFFICE OF THE PITTSBURGH GAZETTE,
WEDNESDAY, May 22, 1867.

The New York stock quotations to-day, as reported by Ph. R. Mertz, were as follows: Gold, 138⅛; Eighty-one bonds, 111⅜; Five Twenties, 1862, 109¾; Five Twenties, 1864, 105¾; Five Twenties, 1865, 106⅝; 5-20s, Consols, 108; Seven Thirties, first issue, 106⅛; do, second and third issues, 105⅝; Ten Forties, 99⅝; Cleveland & Pittsburgh Railroad, 74; Fort Wayne & Chicago, 96; Erie, 62¼; Chicago and North Western, 34⅝; Chicago and North Western prefrd, 59⅝; Chicago and Rock Island, 89; New York Central, 98¼; Reading, 104; Michigan Southern, 68¼.

In the face of the heavy shipments of coin to Europe, gold advanced to-day to 138½, with a prospect for a higher quotation for the Saturday's steamers. Most of the cotton bills have to be covered by gold shipments, since there is nothing now to remit to cover drafts. Nevertheless, a higher quotation for our bonds in Europe and a market there for our consols would bring down the premium from three to four per cent., and greatly disappoint the forty per cent. holders of round lots of specie. National gold-bearing securities, in sympathy with the advance in gold, are dull and lower.

Railroad shares are dull but steady; transactions are light and confined to brokers in adjusting differences between nominal sales. The freight business on all the Western through routes is falling off considerably, and no prospects for improvement [illegible] of the [illegible] to reduce expenses, [illegible] their net earnings.

The local money market works easier on first-class paper; long paper is unsaleable at any rate. Bank and Insurance stocks are difficult to negotiate at short notice and former rates.

—Upon the authority of the New York *Financial Chronicle* it would appear that no small disquietude prevails in financial circles in consequence of the claim which (as in the case of the late New Orleans and other disgraceful National bank frauds,) the officers of the Treasury have tried to make good relative to government deposits. It is claimed that when a bank fails, having in its possession money belonging to the National Treasury, this money must be paid in full before any other debts are satisfied. If there is only enough to pay the government, the government takes all there is, and leaves the private depositors without a dollar. If there is a surplus the private depositors will receive it. This view of the comparative claims of the government and of the public over the assets of a broken bank is the one which, if we are not misinformed, has not only been advanced but enforced. Hence, the first telegrams of any new bank failure assure us that "the government will lose nothing and the circulation is secure." The authority upon which government officials proceed in giving precedence to government claims in cases of this kind is, for general warrant, an old law to that effect and specifically, the 50th section of the banking law which provides for the government first. The great question for the community, however, in this connection, is, as the *Financial Chronicle* puts it, "whether a bank possessing influence enough to obtain heavy government deposits should be allowed to use those deposits in fomenting speculation in cotton, in stocks, in gold, in provisions, in breadstuffs, in robbing the poor by high prices of the necessaries of life, and in robbing commerce by deranging the markets for the commodities of trade; and whether after all, the losses, when the speculative bank succumbs, shall fall on the depositors—on the very public who have been the sufferers from the speculations themselves?"

—The recent failures of banks at New Orleans, and the probable loss by the Government through its Sub-Treasury there, still provokes considerable newspaper animadversion. The facts of the case slowly comes to light. It is now alleged by the friends of Mr. Whitaker, the Assistant Treasurer, that when he took the office he found on hand $450,000 of the certificates of deposit of the First National Bank, which amount the bank owed the Sub-Treasury. This was about eight months ago, and, as Mr. May, the then retiring Sub-Treasurer and President of the bank, became Mr. Whitaker's surety, it was thought that the matter would be all satisfactorily arranged, but the indebtedness of the bank increased instead of diminishing, until it reached the aggregate of $1,100,000. The bank's certificates were changed to Mr. May's notes, and then to his drafts on the North, which were never forwarded for collection. Mr. Whitaker and his friends assert that with prudent management every dollar can be recovered. The qualification "prudent management" is a term ominous of a different result, though the best is hoped for. The special agents of the Government are still in charge of both Sub-Treasury and bank, and seem determined to save what they have in hand, if no more.—*Phila. Ledger.*

—A day or two ago we published an item, clipped from the Philadelphia *Inquirer*, relative to the Pittsburgh & Fort Wayne Railroad. We have since been informed that the article in question does a great injustice to the management of the road; that the trains never made better time than at present, and that the proposed issue of new stock is to build a new depot in this city, and to furnish additional equipment to meet the growing business of the road. The Directors have preferred to issue new stock to the above amount rather than take the funds required from the treasury—thus allowing all the net earnings to go to the payment of dividends. The attack of the *Inquirer* on this road is uncalled for and the facts will not warrant it. Accidents occur no more frequently on this road than any other roads; and in the West we hear of so complaints about missing the connections or other delays. The article in question was either written with a desire to bear the stock or else in malice—or probably both. *Chicago Tribune.*

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE,
WEDNESDAY, May 22, 1867.

The general markets present no new characteristics worthy of special notice. The demand for most of the leading articles is restricted mainly to supplying immediate wants, and values, generally, have undergone no material change.

GRAIN—Some Wheat arriving, but it is mostly owned by city millers. Corn continues dull with a drooping tendency. Shelled may be quoted at $1 to $1,05. There seems to be a little "corner" in Oats, and prices, consequently, have advanced—we now quote at 68 to 70, in elevator. Rye is in demand and may be fairly quoted at $1,68 to $1,70. No movement in Barley.

FLOUR—The market is quiet and a little weak, and if anything, prices are a shade lower. We now quote at $14,75 to $15,25 for good to choice Spring Wheat; $16 to $17 for Winter Wheat, and $19 to $20 for fancy brands. Rye Flour selling in store, at $9,50 to $10.

PROVISIONS—Bacon is steady, with regular jobbing sales at 9½c to 9¾ cts for Shoulders; 11½c to 12¼ for Ribbed and Clear Sides; 15¼ to 16½c for Plain and Canvassed Sugar Cured Hams. Dried Beef, 22½@23; Lard 13 to 13½c; and Mess Pork, $23,00 to $23,50. Sale of 2000 lbs country Clear Sides at 10½c, and 2000 do at 11c.

COOPERAGE—Sale on wharf of 25 m. Dry Staves, (trimmed) at $30, and 15 m. do (rough) at $26. Hoop-poles quoted at $12 to $13.

HIDES—Sale of 300 green salted at 12½ to 13; 700 dry flint at 21 to 25, and 100 kips at 33.

BUTTER—Is dull with a supply largely in excess of the demand but unchanged. Good to prime fresh grass Butter is selling at 15 to 18c, and choice, 20c.

EGGS—Continue in good demand, and with comparatively light arrivals, prices are firm, and fresh packed sell readily at 19 cts.

CHEESE—New Western Reserve selling at 15 to 16c, as to quality. Receipts increasing.

HAY—Prime baled Hay is in good demand, while common and inferior is hard to sell at any price. The former is selling in store at $26 to $28.

POTATOES—Scarce and in demand. Sales of Neshannocks at $3,25 per bbl—Peach Blows would doubtless bring $3,50.

DRIED FRUIT—Is quiet and dull but unchanged; small sales at 8 to 9c for Apples, and 12½c to 16c for Peaches.

GREEN APPLES—To use a common phrase, are about played out. May be quoted at $8 to $10 per bbl.

OIL—Lard Oil is reported firm, with regular sales by manufacturers at 87 to 88c for No. 2, and $1,08 to 1,10 for No. 1.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE,
WEDNESDAY, May 22, 1867.

CRUDE—The market was again exceedingly dull to-day; the result of the race was the chief topic of conversation, and but little else was thought of or talked about. So far as we could learn, there was not a single operation, and in the absence of sales, we continue to quote at 7c for spot oil—there was a sale made a few days since for June, 7½, but this figure could hardly be realized now. We have no advices from Oil City to-day, none of our dealers manifesting sufficient interest in the business to telegraph, and so far as we could learn, there were but few telegrams received from that point. The arrivals have commenced to fall off materially, and until matters take a turn, no improvement in this respect need be looked for.

REFINED—The transactions in bonded oil were very light to-day, but one sale reported, 500 each for September and October, standard white, at 31c, delivered in Philadelphia. The market continues dull and weak, with no indications at present of any immediate improvement—a private telegram from Philadelphia reported spot oil at 25c, for prime light straw to white, and 26c for standard white.

ARRIVALS—The following arrivals of oil were reported to-day:

RIVER NEWS.

The river, under the influence of the recent rains, is again swelling at this point, the Monongahela marks last evening indicating nearly seven feet. The weather continues cloudy and unsettled, with frequent showers of rain. At Oil City, the Allegheny was at a stand yesterday with four feet in the channel.

There have been no arrivals since our last report, and the Argosy, for Cincinnati, and Julia, for Louisville, were the only transient departures. The Julia got off at an early hour yesterday morning. There are no boats due for a day or two.

The new and commodious steamer Glendale, Capt. John H. Hare, with Capt. James Mellon, in the office, is now in turn for St. Louis, and will be the first boat out, and passengers and shippers should bear this in mind.

The Ida Rees left for Oil City last evening, and the Echo and Urilda are the next boats due.

The Glasgow left Cincinnati for Pittsburgh on Monday, and the Ida Rees and Belle were advertised to follow on Tuesday.

The Columbia, Bellevernon and Armenia, as we learn from our St. Louis exchanges, will load with iron ore for Pittsburgh.

The Wild Duck and model barges, Swan and Dove, passed through the canal at Louisville on Monday, enroute for St. Louis. The towboat A. J. Baker arrived at Louisville the other day from New Orleans, with a tow of empty barges.

It is stated that the Glasgow has a young lady clerk. Our down river exchanges speak of her as Miss Minnie R.

The Cincinnati *Commercial*, of Tuesday, says: The remains of Thos. H. Montague, the ill-fated Fashion's heroic pilot, were interred in Girod Street Cemetery, New Orleans, on the 17th inst., from the residence of John S. Washington. The remains were found in the river at Baton Rouge.

The Cincinnati *Enquirer* says: Last evening a trio of scamps went on board the steamer Ezra Porter, and had a good time generally. They purloined some fifty or sixty dollars belonging to the officers of the boat, stepped into several suits of clothing that *suited*, and for fear their raid should prove *bootless*, went for several pair of boots, and with their *booty* stepped on board the steamer Swallow, broke open the bar of the boat, and drank to the success of their expedition, at the expense of the barkeeper of said boat.

The St. Louis *Republican*, of Monday, says: Mention was made in yesterday's issue that the United States Marshal had seized the steamer Imperial for debt. During the night the claim was paid in full, and the boat released, whereupon the captain, having intimation that other parties intended using the same means to enforce the payment of their claims, very quietly raised steam, and at early dawn started on his voyage to Fort Benton, without extending the usual "Good-by" to the numerous parties in this city who were interested in the boat. We understand that the Sheriff had in his hands one claim of $7,000 against the boat. This, we suppose, will have to await the return of the steamer. Considerable disgust was expressed by several parties on the wharf at the discourteous manner in which they had been served by the very impolite, but politic captain.

The Board of Health have purchased the hull of the late steamer Lillie Martin, and will locate it at the lower extremity of the wharf, to be used as a "dumping" place for the offal of the city.

The St. Louis *Republican* says: We hear that the Coroner's jury, at Hampton, find that no one is to blame for the blowing up of the steamer Lansing. The most probable theory of the cause of the explosion seems to be, that, lying close on a sandy beach, with the mud and sand badly stirred up by the revolutions of the wheel, enough sediment was pumped up by the engines to obstruct the regular flow of water to the boilers. The fact that none of the dead or wounded were scalded to any extent, seems to indicate a lack of water in the exploded boiler, and, possibly the cause of the explosion.
